

## Pro-Grow bark chip

Pro-Grow bark chip is a high quality, mixed bark chip to enhance the appearance of pathways, beds and borders. It is a British product gathered from responsible sources in the UK.

Pro-Grow bark chip is also perfect for mulching to suppress weeds, retain moisture and protect plant roots. It is a long lasting and durable chip and can help to reduce garden maintenance. It is easy to handle and can be applied in all areas of the garden, from pathways, to beds and borders.

- Responsibly sourced garden bark chippings from the UK
- Suppresses weeds
- Retains moisture
- Protects Roots
- Hard wearing bark

### *Directions for use:*

Pro-Grow bark chips are free-flowing and easy to rake out. Cover your bed or border at a thickness of at least 5cm taking care not to smother low growing plants. For best results, apply in the Spring or Autumn when the soil is moist, and after removing weeds.

### *Safe Handling:*

Every effort has been made to ensure this product contains no germs, sharp fragments, toxins or regenerative plant parts. However, the producer cannot guarantee they will never be present. As with all products of this type, wear gloves when handling and wash hands after use. During handling avoid inhaling any dust or water vapour or droplets from it, or ingesting any of it.

### *Storage:*

This product should be kept in a dry and cool place covered from wind-blown weeds and other contaminants. If stored for longer than 6 months the product quality may change due to natural processes.

### *Bark specification:*

- 5 – 35mm mixed bark
- Up to 20% white wood
- Minimal dust and fines
- 50mm minimum effective depth
- 2 years + durability
- Purchased from FSC certified supplier
